

About Me

Jamie Bekiares

I am currently obtaining my bachelor's degree in Business Management with minors in Information Systems and Human Resources. I hope to eventually start my own company with the focus being on providing classes that certify in American Red Cross skills.

I have taken IS 101 and 201. I have experience in Microsoft office applications (Word, Access, Excel), R Studio, Drawio, and Adobe Photoshop. I use Microsoft for all my coursework; this is my main platform. The other applications are things I have used for specific courses I have taken while trying to earn my degree.

I am twenty-five years old; I took a five-year gap from school after graduating high school. I am originally from Nevada. I came back to school after I had my daughter, my main goal being to be able to support her and myself with a potentially better paying job. Currently, my favorite pastimes are reading and spending time with my two-year-old. I am currently interning at the Churchill County Aquatic Center under the Aquatic Coordinator.
